We should really move that forward. There was a recent IRIS publication that supports Rachel's work on acrolein at least, available at: <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC7917575/>

Gino, do you know if Rachel is still game for publishing her work? If so, let's get some time on the books to move it forward.

Hey guys,

What ever happened to the inhalation values analysis/paper that an Intern (Rachel?) worked on a year or two back?
